Introduction to clinical information Databases

برگزار کننده: دانشکده پرستاری و مامایی شهید بهشتی رشت

مدرس: رامین صولتی ماسوله
Patterns of practice

• Experience
• Knowledge
• Evidence Based Practice
Definition: Evidence-Based Medicine

“The practice of EBM includes the judicious integration of current best scientific literature, clinical experience and patient understanding and values.”

Adapted from Guyatt et al. and Sackett et al.
Levels of Evidence

- Randomized Controlled Double Blind Studies
- Cohort Studies
- Case Control Studies
- Case Series
- Case Reports
- Ideas, Editorials, Opinions
- Animal research
- In vitro ('test tube') research
- Systematic Reviews and Meta-analyses
Welcome to Iranian Registry of Clinical Trials. This is a Primary Registry in the WHO Registry Network set up with the help from the Ministry of Health and Medical Education (MOHME) and hosted by Iran University of Medical Sciences (IUMS).

22253 trials registered.

ClinicalTrials.gov is a database of privately and publicly funded clinical studies conducted around the world.

Explore 320,846 research studies in all 50 states and in 209 countries.

ClinicalTrials.gov is a resource provided by the U.S. National Library of Medicine.

**IMPORTANT:** Listing a study does not mean it has been evaluated by the U.S. Federal Government. Read our [disclaimer](https://clinicaltrials.gov/disclaimer) for details.

Before participating in a study, talk to your healthcare provider and learn about the [risks and potential benefits](https://clinicaltrials.gov/risk-benefit).

What is Journal Club?

- The general purpose of a journal club is to facilitate the review of a specific research study and to discuss implications of the study for clinical practice.

- A journal club has been defined as an educational meeting in which a group of individuals discuss current articles, providing a forum for a collective effort to keep up with the literature.

- There are many advantages of participating in a journal club, including keeping abreast of new knowledge, promoting awareness of current nursing research findings, learning to critique and appraise research, becoming familiar with the best current clinical research, and encouraging research utilization.
ACP Journal Club

- **American College of Physicians** (ACP)
- summarizes the best new evidence for internal medicine from over 120 clinical journals.
- is now a monthly feature of *Annals of Internal Medicine*
